

Project Design Phase-II

Data Flow Diagram

Date	19 October 2022
Team ID	PNT2022TMID17919
Project Name	Data Analytics for DHL Logistics Facilities

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enter and leaves the system, what changes the information, and where data is stored.
